

MAJSTER-AI: HOLOGRAPHIC UI/UX CONCEPT

PROJECT BLUEPRINT & VISUAL ARCHITECTURE

This document outlines the proposed modern, glassmorphism-inspired UI/UX design for the Majster-AI diagnostic agent. The aesthetic combines dark cyberpunk elements with clean, automotive telemetry layouts.

Deep Space Background #0f172a	Glass Panel Fill #1e293b	Neon Cyan Accent #38bdf8	Alert Red Accent #f43f5e	Telemetry Green #10b981

VEHICLE STATUS

ECM (Engine)

Status: ONLINE - No DTC

HALDEX (RDCM)

Status: DTC FOUND - P061B

ABS / DSC

Status: ONLINE - No DTC

Connection: J2534 Tactrix
Latency: 14ms
Battery: 12.4V

MAJSTER-AI TERMINAL

"Check why Terrain Response is off."

[System] Executing UDS Request to modules...
[System] Querying Freel2.com and RAG database...

Majster-AI: Mateusz, I found DTC P061B and P0120. Your Throttle Body is stuck at 83%. This cascades and blocks the Terrain Response. I've pulled up the removal schematic for you on the right.
